### BOP20 BATTERY OPERATED PUMP

There's never been a smarter pump. Designed and made in Australia, the Macnaught BOP20 is a portable and rechargeable 18volt battery operated pump, designed to improve workshop efficiency and reduce fatigue with the flick of a switch. Simple but clever, the BOP20 powerhead can be transferred across multiple pump stems to reduce setup costs. The on-demand flow nozzle allows full control over fluid delivery with flow rates up to 3.5L/min.
