Crimpers

PC100S-RCD Portable Series

PC100S-RCD Portable Series Crimper

The PC100S-RCD crimper can be carried to the jobsite with a handle and support stand. This crimper is ideal for portable crimping requirements. Whether carried on-site, used in a vehicle or even stationary at the shop, the PC100S-RCD is designed as a low volume crimper for occasional use. The crimp diameter is set and controlled with an easy-to-read T420 micrometer. This affordable crimper is packaged in component parts to fit the needs of the user.

The PC100S-RCD standard package includes: T420 micrometer, LED light indicator, removable pusher, standard pressure plate, Continental digital caliper, die removal magnet, and CRIMPX die lubricant oil w/ dauber cap.

PC100S-RCD Features

NOTCHED PRESSURE PLATE

- Ideal when crimping 90 deg. fittings

Lightweight portable crimper can be carried to almost any location where service is required

Micrometer style adjustment is fully adjustable for a precise crimp

Easy Lubrication Maintenance

Crimper position can be adjusted for optimum crimping position

Open design allows the operator to accurately position the fitting prior to crimping

LED indicator light will turn on to indicate that the crimp is complete

PC100P-RCD Portable Series Crimper

CAPABILITY

- (-16) B2 Fittings
- (-08) SG Fittings

TECHNICAL DATA

- **CRIMPING FORCE** 35 Ton
- **WEIGHT** 66 lb. (crimper only)
95 lb. (crimper w/ case)
- **DIMENSIONS** 16" L x 16" W x 14-¼" H (crimper only)
16" L x 16" W x 18" H (crimper inside case)
- **DIE SERIES** PC125RCD

Crimpers

PC100P-RCD Portable Series

PC100P-RCD Portable Series Crimper

The PC100P-RCD crimper can be transported easily to the jobsite. This crimper is ideal for portable crimping requirements. Whether transported on-site, used in a vehicle or even stationary at the shop, the PC100P-RCD is designed as a low volume crimper for occasional use. The crimp diameter is set and controlled with an easy-to-read T420 micrometer. This affordable crimper is packaged in component parts to fit the needs of the user.

The PC100P-RCD standard package includes: T420 micrometer, LED light indicator, removable pusher, standard pressure plate, Continental digital caliper, die removal magnet, and CRIMPX die lubricant oil w/ dauber cap.

PC100P-RCD Features

COMPACT ENGINEERED DESIGN

- Ideal for small workshops
- Convenient storage case to keep the crimper and crimping accessories all together
- The unit can be easily transported in vehicles for on-site jobs

Lightweight portable crimper with a convenient storage case

Crimper and crimping accessories can be stored in the case

Micrometer style adjustment is fully adjustable for a precise crimp

Easy Lubrication Maintenance

Open design allows the operator to accurately position the fitting prior to crimping

LED indicator light will turn on to indicate that the crimp is complete

PC100H-RCD Portable Series Crimper

PC100H-RCD Portable Series

PC100H-RCD Portable Series Crimper

The PC100H-RCD crimper can be transported easily to the jobsite. This crimper is ideal for portable crimping requirements. Whether transported on-site, used in a vehicle or even stationary at the shop, the PC100H-RCD is designed as a low volume crimper for occasional use. The crimp diameter is set and controlled with an easy-to-read T420 micrometer. This affordable crimper is packaged in component parts to fit the needs of the user.

The PC100H-RCD standard package includes: T420 micrometer, LED light indicator, removable pusher, standard pressure plate, Continental digital caliper, die removal magnet, and CRIMPX die lubricant oil w/ dauber cap.

PC100H-RCD Features

COMPACT ENGINEERED DESIGN

- Ideal for small workshops
- Convenient storage case to keep the crimper and crimping accessories all together
- The unit can be easily transported in vehicles for on-site jobs

Lightweight portable crimper with a convenient storage case

Crimper and crimping accessories can be stored in the case

Micrometer style adjustment is fully adjustable for a precise crimp

Easy Lubrication Maintenance

Open design allows the operator to accurately position the fitting prior to crimping

LED indicator light will turn on to indicate that the crimp is complete

PC125M-RCD Portable Series Crimper

The PC125M-RCD crimper can be carried to the jobsite with a handle and support stand. This crimper is ideal for portable crimping requirements. Whether carried on-site, used in a vehicle or even stationary at the shop, the PC125M-RCD is designed as a low volume crimper for occasional use. The crimp diameter is set and controlled with an easy-to-read T420 micrometer. This affordable crimper is packaged in component parts to fit the needs of the user.

The PC125M-RCD standard package includes: T420 micrometer, adjustable retraction stop, LED light indicator, removable pusher, standard pressure plate, notched pressure plate, Continental digital caliper, die removal magnet, and CRIMPX die lubricant oil w/ dauber cap.

PC125M-RCD Features

ADJUSTABLE RETRACTION STOP

- Limits ram retraction to only the amount required to remove the hose and coupling
- Saves time on multiple repetitive crimps

Portable rugged steel frame and strain rods provide strength, stability, and performance for all crimping service

Micrometer style adjustment is fully adjustable for a precise crimp

Easy Lubrication Maintenance

Ideal notched pressure plate when crimping 90 deg. fittings

Open design allows the operator to accurately position the fitting prior to crimping

LED indicator light will turn on to indicate that the crimp is complete

EQUIPMENT

Crimpers

PC125-RCD Series

PC125-RCD Series Crimper

The PC125-RCD crimper with its open design, removable pusher and easy-to-use, rubber-cage die set, is designed for higher production volume and repetitive use. Crimp diameter is set and controlled with an easy-to-read T420 micrometer. The PC125-RCD is packaged for shop service.

The PC125-RCD standard package includes: T420 micrometer, electronic stop switch, adjustable retraction stop, removable pusher, standard pressure plate, notched pressure plate, adjustable coupling stop, pneumatic start/stop pendant switch, Continental digital caliper, die removal magnet, and CRIMPX die lubricant oil w/ dauber cap.

PC125-RCD Features

PC125 STAND/DRAWER

- The PC125-RCD crimper can be mounted on the PC125 Stand/Drawer
- PC125RCD dies and crimping tooling can be stored in the drawer

Micrometer style adjustment is fully adjustable for a precise crimp

Easy Lubrication Maintenance

Ideal notched pressure plate when crimping 90 deg. fittings

Retraction Stop limits ram retraction for quick repetitive crimps

Coupling Stop makes repetitive crimps faster

Electronic Stop Switch shuts the pump off when the crimp cycle is complete

PC125PS (Positive Stop) Series Crimper

CAPABILITY

- (-16) B2 Fittings

Compatible only with the following hose:
 SR1SN, SR2SN, SR/XR/ARC16SC, SCP3,
 XCP3, FPII, SR/AR12 and HR4

TECHNICAL DATA

- **CRIMPING FORCE** 60 Ton
- **WEIGHT** 150 lb. (crimper only)
- **DIMENSIONS** 22-½" L x 13" W x 22-½" H
- **DIE SERIES** PC125RCD
- **OIL CAPACITY** 1 gal.

PC125PS (Positive Stop) Series Crimper

The PC125PS is a Positive Stop crimper capable of crimping 2-wire braid hose and 4-wire spiral hose up through 1" ID. The crimp diameter is controlled through the use of specific die and spacer combinations. The PC125PS is packaged for shop service.

The PC125PS standard package includes: Adjustable retraction stop, removable pusher, standard psw pressure plate, (psw notched pressure plate only for SAP# 20871410), adjustable coupling stop, pneumatic start/stop pendant switch, Continental digital caliper, die removal magnet, and CRIMPX die lubricant oil w/ dauber cap.

PC125PS Features

PC125PS TOOLING

- Easy to use crimping tooling
- Only requires specific die and spacer within specifications to crimp the hose assembly

Crimp diameter is controlled by specific die and spacer combinations

Easy Lubrication Maintenance

Open design allows the operator to accurately position the fitting prior to crimping

Ideal notched pressure plate when crimping 90 deg. fittings

Retraction Stop limits ram retraction for quick repetitive crimps

Crimper can be mounted on the PC125 Stand/Drawer dies & crimping tools can be stored

PC150 Standard Series Crimper

CAPABILITY

- (1-½") B2 Fittings
- (1-¼") SG Fittings

TECHNICAL DATA

- **CRIMPING FORCE** 80 Ton
- **WEIGHT** 305 lb. (crimper only)
- **DIMENSIONS** 32" L x 17" W x 29" H
- **DIE SERIES** PC150 Standard
- **OIL CAPACITY** 1 gal.

PC150 Standard Series Crimper

The PC150 is a stationary crimper with more power to manufacture factory-quality hose assemblies quickly and easily. Its open design with removable pusher and "slide in" die configuration allows for good visibility and easy loading of dies and hose assemblies. Crimp diameter is set and controlled with an easy-to-read metric micrometer. Designed to handle higher volumes in a shop environment.

The PC150 standard package includes: Metric micrometer, electronic stop switch, adjustable retraction stop, removable pusher, standard compression ring, adjustable coupling stop, pneumatic start/stop pendant switch, spare bag of springs and screws, Continental digital caliper, and CRIMPX die lubricant grease can w/ brush.

PC150 Standard Features

IDEAL FOR THE WORK SHOP ENVIRONMENT

- 80 tons of crimping force
- Two piece "slide in" die design for easy installation
- Retraction stop and electronic stop switch combine to speed up repetitive crimps

PC150 Standard dies

Micrometer style adjustment is fully adjustable for a precise crimp

Retraction Stop limits ram retraction for quick repetitive crimps

Open design allows the operator to accurately position the fitting prior to crimping

Coupling Stop makes repetitive crimps faster by not having to visually align the fitting before each crimp

Electronic Stop Switch shuts the pump off when the crimp cycle is complete

Easy calibration adjustment to increase or decrease the crimp diameter

PC150 Double Angle Series Crimper

CAPABILITY

- (¼" thru 2") B2 Fittings
- (1-½") SG Fittings

TECHNICAL DATA

- **CRIMPING FORCE** 80 Ton
- **WEIGHT** 305 lb. (crimper only)
- **DIMENSIONS** 32" L x 17" W x 29" H
- **DIE SERIES** PC150 Double Angle
- **OIL CAPACITY** 1 gal.

EQUIPMENT

Crimpers

PC150 Double Angle Series

PC150 Double Angle Series Crimper

The PC150 is a stationary crimper with more power to manufacture factory-quality hose assemblies quickly and easily. Its open design with removable pusher and “two halves double angle” die configuration allows for good visibility and easy loading of dies and hose assemblies. Crimp diameter is set and controlled with an easy-to-read metric micrometer.

Designed to handle higher volumes in a shop environment.

The PC150 standard package includes: Metric micrometer, electronic stop switch, adjustable retraction stop, removable pusher, double angle top and base, adjustable coupling stop, pneumatic start/stop pendant switch, spare bag of springs and screws, Continental digital caliper, and CRIMPX die lubricant grease can w/ brush.

PC150 Double Angle Features

PC150 SPACER KIT

- Easy functions to enable you to quickly and accurately change from PC150 dies to PC150 Double Angle dies
- PC150 Spacer Kit ideal for crimping extra long elbow fittings
- Adds exactly 1" between the pusher and DBL TOP Cone to allow extra fitting clearance

PC150 Double Angle dies

Micrometer style adjustment is fully adjustable for a precise crimp

Retraction Stop limits ram retraction for quick repetitive crimps

Open design allows the operator to accurately position the fitting prior to crimping

Electronic Stop Switch shuts the pump off when the crimp cycle is complete

PC150 Spacer Kit ideal for crimping extra long elbow fittings

Easy calibration adjustment to increase or decrease the crimp diameter

PC150HD Series Crimper

CAPABILITY

- 1/4" through 2" ID, 2-braid hose and 1 1/4" 6-spiral hose with all coupling end styles and most bent tubes.

TECHNICAL DATA

- **CRIMPING FORCE** 240 Ton
- **WEIGHT** 400 lb. (crimper only)
- **DIMENSIONS** 17-1/2" L x 25" W x 25" H
- **DIE SERIES** PC150H
- **OIL CAPACITY** 6 gal.

EQUIPMENT

Crimpers

PC150HD Series

PC150HD Series Crimper

The PC150HD crimper has a compact design and is engineered to handle higher volumes in a shop environment, with a dial micrometer and 240 tons of crimping force that can crimp up to 2" industrial hose.

The PC150HD standard package includes: Dial micrometer, foot switch, 84mm quick change tool, 9 station die rack, manual back stop, protective master die foam pads, spare bag of die studs and quick change tool pins, Continental digital caliper, and mini grease gun w/ CRIMPX die lubricant grease tube.

PC150HD Features

PC150HD COMPACT ENGINEERED DESIGN

- Easy operating control system
- Visible oil level through the sight glass and two oil drains ports
- Compact design to fit in the workshop
- Perfect for workshops and on-site services

Dial micrometer is fully adjustable, and it provides speed, precision and reliability

Easy operating control system using Open/Close green push button or the foot switch

Manual back stop speeds multiple crimps of the same hose and fitting

Easy grease maintenance through the 8 lubrication fittings

Quick change tool makes die changes a quick and simple process

The Foot Switch permits dies to be "jogged" into position and keeps both hands free

PC200M Series Crimper

CAPABILITY

- 1/4" through 2" ID, 2-braid hose and 2" 6-spiral hose with all coupling end styles and most bent tubes.

TECHNICAL DATA

- **CRIMPING FORCE** 340 Ton
- **WEIGHT** 635 lb. (crimper only)
- **DIMENSIONS** 20" L x 29" W x 32" H
- **HYDRAULIC DIE SERIES** PC200
- **ADAPTER DIE SERIES** 130MM to 99MM
- **OIL CAPACITY** 8 gal.

EQUIPMENT

Crimpers

PC200M Series

PC200M Series Crimper

The PC200M crimper has a compact design engineered to handle higher volumes in a shop environment, with the dial micrometer and 340 tons of crimping force capable of crimping up to 3" industrial hose.

The PC200M standard package includes: Dial micrometer, foot switch, 99mm QCT, 9 station die rack, manual back stop, protective master die foam pads, (1) adapter die set, adapter die removal tool, spare set of die studs and QCT pins, Continental digital caliper, and mini grease gun w/ CRIMPX die lubricant grease tube.

PC200M Features

PC200-RACK

- The PC200M crimper comes with a (5) die storage pockets panel installed
- The PC200M crimper can be mounted on the PC200-Rack
- The PC200-Rack has (16) PC200 die storage pockets to keep frequently used die sets readily available

Dial micrometer is fully adjustable, and it provides speed, precision, and repeatability

Quick change tool makes die changes a quick and simple process

Manual back stop speeds multiple crimps of the same hose and fitting

Easy grease maintenance through the 8 lubrication fittings

5 die storage pockets panel installed to keep frequently used die sets readily available

The Foot Switch permits dies to be "jogged" into position and keeps both hands free

Hose Saws

HS-150 Series

HS-150 Series Hose Saw

The HS-150 hose saw is a rugged, compact, and lightweight engineered design ideal for small workshops with a low maintenance cost.

The HS-150 standard package includes: serrated blade, hose bending pins, and 1-1/4" vacuum adapter.

HS-150 Features

AVAILABLE HS-150 MOBILE HOSE SAW

- Ideal for on-site service where electricity is not available
- 3 types of blades are available for HS-150 and HS-500 series: Serrated blade, Scalloped blade and Double Bevel w/ SS Slots blade

Vacuum port allows attachment of vacuum system to keep saw and work space clean

Hose Bending Pins prevent the blade from binding during a cut

Serrated Blade is for general purpose and is recommended to cut multi-spiral hose

Scalloped Blade is for general purpose and is recommended to cut multi-spiral hose

Double Bevel w/SS Slots Blade is recommended for braided hose with minimum debris during the cut

HS-500 Series Hose Saw

CAPABILITY

- The HS-500 is designed to cut 1- and 2-braid hydraulic hose up to 2" ID and up to 2" 4- or 6-spiral hose.

TECHNICAL DATA

- WEIGHT** 120 lb. (hose saw only)

EQUIPMENT

Hose Saws

HS-500 Series

HS-500 Series Hose Saw

The HS-500 hose saw is a rugged engineered design, and the accessories included make it the best value of any hose saw in its class with a low maintenance cost.

The HS-500 standard package includes: Serrated blade, hose helper, hose bending pins, and 1-1/4" vacuum adapter.

HS-500 Features

HS-500 ACCESSORIES

- The HS-500 can be mounted on the HS-Mobile cart for easy moving around the shop
- The Hose Channel System both measures and supports the hoses up to 2 inch diameter as they are being cut
- 3 types of blades are available for HS150 and HS-500 series: Serrated blade, Scalloped blade and Double Bevel w/ SS Slots blade

The mister sprays a fine mist of air tool oil on the saw blade for longer blade life and cleaner cuts

Hose Bending Pins prevent the blade from binding during a cut

Hose Helper attachment prevents the hose from being drawn back during a cut

With the hose helper extension attached, can be adjusted up to 22" away from the hose saw base

A resettable counter makes it easy to keep track of the number of cuts made

Vacuum port allows attachment of vacuum system to keep saw and work space clean

SM300 Electric Hose Skiver Unit

CAPABILITY

Electric Hose Skiver Unit

SM300 Series

SM300 Electric Hose Skiver Unit

The SM300 Electric Hose Skiver Unit has the capacity to skive hoses from 1/2" to 3" either internally or externally. The quick change tooling, carbide cutting inserts and dual arm external skiver make this product an outstanding value.

SM300 Features

ID / OD SKIVING TOOLS

- OD and ID skive depth adjustability is easy and accurate
- OD carbide skiving insert blade has 4 usable cutting surfaces, which can be rotated quickly
- All OD and ID skiving tools are compatible with 300M hand operated skiving tool

BENCH TOP HOSE SKIVER

- The electric hose skiver unit can be mounted on a work bench
- Tool holder can be mounted on a work bench to keep the ID and OD skiving tools organized and readily available

ID skiving tool with high speed steel cutting tool to provide clean ID skiving

OD skiving tool with long lasting carbide inserts have multiple cutting edges to eliminate sharpening

Laser etched scale is designed to help accurately calibrate the skive diameter

Change from OD to ID skiving tool in seconds with PTO coupling

Safety Switch activates and shuts the motor off when the safety shield is opened

Hose skiver unit and the tool holder can be mounted on the optional mobile cart

SM300M Hand Operated Hose Skiver Tool

CAPABILITY

- Capable of skiving up to 3 inches either internally or externally

SM300M Series

SM300M Hand Operated Hose Skiver Tool

The SM300M hand operated hose skiver tool has the capacity to skive hoses from 1/2" to 3" either internally or externally. The quick change tooling, carbide cutting inserts and dual arm external skiver make this product an outstanding value.

SM300M Features

ID / OD SKIVING TOOLS

- OD and ID skive depth adjustability is easy and accurate
- OD carbide skiving insert blade has 4 usable cutting surfaces, which can be rotated quickly
- All OD and ID skiving tools are compatible with the electric hose skiver unit

HAND OPERATED HOSE SKIVER TOOL READY FOR USE

- The hand operated hose skiver tool is easily mounted in a vise and ready for use
- Tool holder can be mounted on a work bench to keep the ID and OD skiving tools organized and readily available

ID skiving tool with high speed steel cutting tool to provide clean ID skiving

OD skiving tool with long lasting carbide inserts have multiple cutting edges to eliminate sharpening

Laser etched scale is designed to help accurately calibrate the skive diameter

Change from OD to ID skiving tool in seconds with PTO coupling

Easily mounted in a vise and ready for use in the workshop

Tool holder is available separately to keep skiving tools organized and readily available

PCTB "PLC" Series Test Benches

CAPABILITY

Standard Test Benches

- PCTB-1500 – Test pressure range to 21,500 psi (1,500 bar)
- PCTB-2500 – Test pressure range to 37,500 psi (2,500 bar)

Industrial Test Benches

- PCTB-350 – Test pressure range to 5,000 psi (350 bar)
- PCTB-350/1500 – Test pressure range to 21,500 psi (1,500 bar)
- PCTB-350/2500 – Test pressure range to 40,000 psi (2,500 bar)

PCTB "PLC" Series Test Benches

Whether you are producing a single assembly or a production run, Continental has the test equipment to give both you and your customer the assurance that the product has been assembled correctly. A programmable PLC Controller gives the operator the ability to pre-program and repeat a test sequence and print the results on the attached tape (optional save to USB).

CUSTOMIZED AND SPECIAL DESIGN BENCHES

In addition to the standard Electronic "PLC" series test benches, special purpose test benches can be designed by our engineering department, and a trough extension can be designed to meet specific requirements.

PCTB "PLC" Features

PCTB "PLC" SERIES

- 6 in. touch screen and user friendly navigation
- Full opening allows for hose assemblies to be loaded on a skid
- Built-in work light to facilitate ability to see hose being tested
- Storage drawer to keep frequently used tools and your test bench accessories readily available

Intuitive screens lead the operator through the setup and test execution process

Multi-Port Manifold Outlet allows multiple hose assemblies to be tested at the same time

Safety Switch activates and drops pressure as soon as the lid is opened

Results of each test are recorded and can be printed on the included printer or saved via USB port

Removable side panel permits the testing of longer hose assemblies with the attachment of an optional trough

Available extension trough in 10 foot sections

PCTB "Manual" Series Test Benches

CAPABILITY

Standard Test Benches

- PCTB-1500 – Test pressure range to 21,500 psi (1500 bar)
- PCTB-2500 – Test pressure range to 37,500 psi (2500 bar)

TECHNICAL DATA

- **WEIGHT** 955 lb.
- **INSIDE CABINET DIMENSIONS** 67" L x 33" W x 17" H
- **OVERALL DIMENSIONS** 85" L x 39" W x 78" H (closed 52" H)

PCTB "Manual" Series Test Benches

The Continental PCTB "Manual" Series Test Benches provide a safe and efficient method to test hose assemblies for burst or proof testing.

CUSTOMIZED AND SPECIAL DESIGN BENCHES

In addition to the standard PCTB "Manual" series test benches, special purpose test benches can be designed by our engineering department, or a trough extension can be designed to meet specific requirements.

PCTB "Manual" Features

PCTB "MANUAL" SERIES

- User friendly control panel
- Full opening allows for hose assemblies to be loaded on a skid
- Built-in work light to facilitate ability to see hose being tested
- Storage drawer to keep frequently used tools and your test bench accessories readily available

Control Panel with large dials and easy to use controls

Multi-Port Manifold Outlet allows multiple hose assemblies to be tested at the same time

Safety Switch activates and drops pressure as soon as the lid is opened

The air lubricator helps to assure the proper operation of the pump

Removable side panel permits the testing of longer hose assemblies with the attachment of an optional trough

Available extension trough in 10 foot sections

EQUIPMENT

Fitting Pusher

CC-FP10 Series

CC-FP10 Series Fitting Pusher

The CC-FP10 Series fitting pusher is an essential tool for any workshop producing industrial hose assemblies.

The 10 ton hydraulic cylinder with an 18" stroke takes the time consuming and difficult task of installing industrial fittings on large hoses and makes it quick, simple and safe. Easy portability means that you can take the CC-FP10 right to the job and quickly install fittings on hoses from 2 to 12 inches in diameter.

The CCFP-10 standard package includes: 2" strap w/ flat hook, 1-1/8" wrench, elbow fitting adapter, and pusher spacers.

CC-FP10 Features

EASY OPERATING SYSTEM

- 10 tons of available force
- Easy installing fittings on hoses from 2" to 12" in diameter
- Easy tie down and quick release system

Flexible tie down system securely grips hoses from 2 to 12 inches in diameter

Quick tightening using the wrench and quick release using the quick release pedals

10 tons of available force

Fitting pusher makes inserting industrial fittings faster and safer

Elbow fitting adapter and the ability to adjust the position of the ram makes it possible to assemble a wide variety of fittings

Quick release pedals to release the tie down straps

Hose Reel Rack Series

THE HOSE REEL RACK COMES IN 2 COMPACT MODELS

- 24" wide Hose Reel Rack
- 36" wide Hose Reel Rack

TECHNICAL DATA

- **WEIGHT** 119 lb. (24" Hose Reel Rack)
128 lb. (36" Hose Reel Rack)
- **HOSE CAPACITY** 600 lb. (24" and 36" Hose Reel Racks)
- **DIMENSIONS** 36" L x 30" W x 72-½" H (24" Hose Reel Rack)
36" L x 42" W x 72-½" H (36" Hose Reel Rack)

EQUIPMENT

Hose Reel Rack

Hose Reel Rack Series

Hose Reel Rack Series

The Hose Reel Rack is designed to keep the hose spools organized and secure, is made of heavy-duty steel and comes in 2 compact designs (24" and 36" wide) to accommodate your needs.

Hose Reel Rack Features

KEEPING HOSE SPOOLS ORGANIZED

- 5 different positions for customizable configurations that fit various sized hose spools
- 2 reels holders for 2 larger hose spools, or 3 reels holders for 3 smaller hose spools
- 3 reels holders are included (additional reels are available)
- Easy installation, hardware included

Compact design for minimum use of space

You can customize your sized hose spools that best fits your needs

Hose reel rack keeps the hose spools organized and clean

CrimplIQ™ Controller Retro-Fit Kit

PC200 and PC400 Series

The New CrimplIQ™ Controller Retro-Fit Kit

Continental introduces the New CrimplIQ™ Controller Retro-Fit Kit for the PC200 and PC400 Crimpers. Upgrade your PC200/PC400 crimper with the New CrimplIQ™ Controller and discover the crimping technology at your fingertips. The CrimplIQ™ Controller software is cloud-based and can provide instant information to owners. Wi-Fi is required. The CrimplIQ™ Controller Retro-Fit Kit standard package includes: Tablet panel, PLC, connection cable, bluetooth caliper, 1/8" hex key, test crimp hose assembly, 4 front panel bolts, and 6 tablet panel screws.

CrimplIQ™ Controller Features

FUNCTIONALITY

- Easy to use interface, on a 10-inch color capacitive touch screen
- Daily reports*
- Remote downloading of updated crimp specifications*
- Favorite thousands of crimp details
- Security - end-to-end data encryption from tablet to cloud
- Operators only have access to essential crimp applications

OPERATIONALLY

- Bluetooth calipers provided with each crimper
- User accounts track operations to individual team members
- Remote troubleshooting*
- In-depth training and tutorial guides
- Video support*

LONGEVITY

- Preventative maintenance alerts
- Full controller backup to the cloud*
- Future enhancements through cloud updates*

***Needs connection to Wi-Fi**

CrimplIQ™ controller, the future of crimping at your fingertips

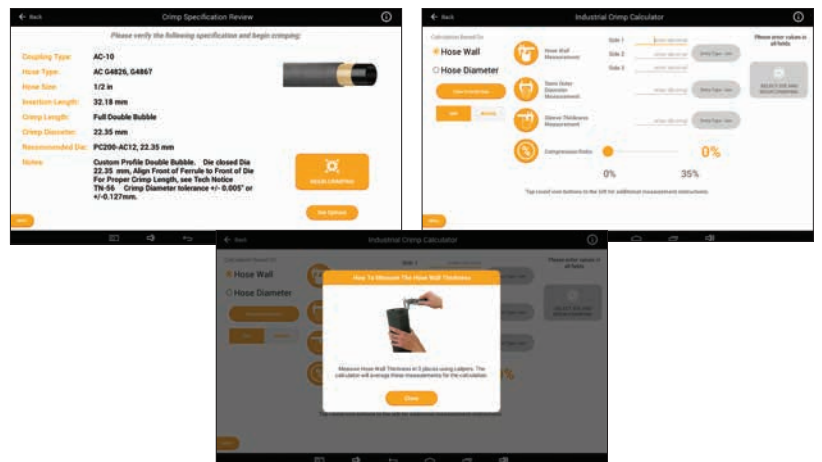

10-inch color capacitive touch screen and user friendly navigation

Intuitive screens lead the operator through the setup and crimping process

CrimplIQ™ controller supports bluetooth calipers to input crimp diameter measurements

CrimplIQ™ Controller Retro-Fit Kit
PC200 and PC400 Series

Continental Bluetooth/Standard/Notched Calipers

Caliper Features

- Bluetooth caliper: The CrimpIQ™ controller supports bluetooth caliper to input crimp diameter measurements. This integration saves time and reduces the chance that measurements are incorrectly entered.
- Standard caliper: Has a long smooth surface great for larger crimp flats.
- Notched caliper: Is great for measuring small crimp flats and AC style crimps.
