Serious About Service

- Holdfast Fluid Power offers a range of service and support options to clients across Western Australia who require the ability to manufacture service trucks, bundled lube containers or supply, fit or replace reels, pumps and accessories.
- Our B2B relationships direct to manufacturer means we can deliver competitive savings across reputable brands.
- Our investment in locally held, quality brand inventory coupled with our unique service offering demonstrates our commitment to be leaders in our industry

- Holdfast Fluid Power has built an excellent reputation throughout the Western Australian Mining and Civil community in technical knowledge, service, quality and integrity
- With a high client retention rate we are extremely proud of the long lasting relationships we have forged with our clients over the years
- We understand that open and honest communication is key to our joint success
- We seek to form partnerships with companies who share our values and wish to engage with us in long lasting, mutually beneficial relationships

Holdfast Lube Containers

- 20ft and 40ft options are available and easily transported to site.
- Each bundled container is fully fitted out with pumps and reels.

- Electrical installation is easy, simply connect to your electricity source and pneumatic compressor
- Multiple supply options are available including outright purchase, rental or we can fit out your own container.

Pumps

Graco Husky Pumps

The Husky air-operated diaphragm pump features a stall-free low pulsation air valve which provides a smooth and rapid changeover. The one-piece center section eliminates leaks and reduces maintenance compared to other diaphragm pumps.

Graco Fire-ball Pumps

Graco Fire-Ball® pumps and packages have been a mainstay in the lubrication marketplace for durability and long life. Designed for the toughest applications, the Fire-Ball brand repeatedly outperforms and outlasts the competition.

Graco NXT Pumps

Field-proven NXT™ Dura-Flo® pumps and packages for oil transfer give you the best value for your money. With field proven long lasting durability, Graco's NXT Dura-Flo pumps and packages outlast the competition year after year.

Samoa Pumps

Air operated double acting pumps.

Reels

Graco XD Hose Reels

Designed for robust/heavy-duty applications such as mobile truck or large equipment service yet with a narrow footprint to fit more reels into small spaces. Ideal for rugged indoor and outdoor use in fleet maintenance and service trucks.

Macnaught Hose Reels

The Macnaught range of twin pedestal heavy duty metal hose reels have been designed using the highest quality, heavy gauge materials and are fitted with purpose specific hose and swivels.

Samoa Hose Reels

Heavy duty full metal double pedestal construction using 4mm gauge steel. The seven position outlet arm, fatigue resistant steel spring and large latching area make for longevity and easy operation.

Graco Powered Hose Reels

The innovative design of the XD60, XD70 and XD80 Series Powered Hose Reel family is packed with features to help you work safer, smarter and faster. The direct-drive motor options include hydraulic, pneumatic and electric.

Flow Metering

Macnaught In-Line Oil Meter

Designed for oils up to SAE140 these oval gear meters are perfect for service trucks, supporting auto trans fluid, engine oil, gear oil, hydraulic oil and pre-dilutes engine coolants.

Macnaught Fuel Meter

These mechanical flow meters are compatible with diesel, kerosene and ULP/gasoline. Designed for in-line or gravity flow applications, they support a flow range of up to 80LPM.

Macnaught Oil Control Guns

Utilising proven oval gear technology these nozzles are manufactured to industry leading strength and durability, supporting up a flow range up to 30LPM.

Graco Flow Meter

Closely monitor fluid use and collect critical operating information for costing, reporting and improving processes. It's easy, efficient and saves you time and money by reducing waste.

Our Quality Brands
